Eligible women may be able to receive  
their first prescription of Phexxi for FREE!  
Terms and conditions may apply.

## INDICATION

Phexxi is an on-demand method of birth control used to prevent pregnancy. Phexxi is not effective when used after sex.

**Please see Important Safety Information throughout.**

phexxi®

(lactic acid, citric acid, and  
potassium bitartrate) Vaginal Gel  
1.8%, 1%, 0.4%

**No Hormones?**

**ZERO. ZILCH. NADA. NONE.**

## What is Phexxi®?

Phexxi is an FDA-approved, hormone-free, prescription vaginal birth control gel that you control.

Phexxi comes in a **4-inch applicator** that you use similarly to a tampon

1 prescription includes **12 individually wrapped, single-dose applicators**

**Phexxi is used right before sex**, or up to 1 hour before sex, and is effective immediately

**An additional dose of Phexxi** must be used before each act of sex

**Phexxi is easily reversible**, because you might want a baby someday, just not now

## Phexxi® puts you in control

Phexxi is quick and easy to use.

Inserting the Phexxi applicator is similar to inserting a tampon.

When to use Phexxi is simple to remember:

**1 DOSE  
ACT**

**WORKS  
IMMEDIATELY  
UP TO 1 HOUR**

Not actual size.

### IMPORTANT SAFETY INFORMATION

Rare cases (0.36%) of bladder and kidney infection have been reported. If you have a history of urinary tract problems that keep coming back, you should not use Phexxi.

Please see full [Product Information](#) for Phexxi.

# How does Phexxi® work?

Vaginas have pH levels that can range from 3.5 to 4.5.

When semen (sperm) enters the vagina, it raises the vagina's pH level, which allows sperm to be mobile and swim up the reproductive canal.

Phexxi works to keep vaginal pH in the range of 3.5 to 4.5, which lowers sperm mobility, lowering the chance of sperm reaching the egg.

Phexxi is designed to stay in place during intercourse.

## IMPORTANT SAFETY INFORMATION (CONT'D)

Contact your healthcare provider if you are experiencing genitourinary side effects such as vaginal burning, itching, discharge, genital discomfort (including in male partners), yeast infection, urinary tract infection or bacterial vaginosis.

Phexxi does not protect against any sexually transmitted infections, including HIV. Avoid using with a vaginal ring.

Please see full [Product Information](#) for Phexxi.

# Proven safe and effective

Phexxi is **86%** effective at preventing pregnancy with typical use.

And, in a separate analysis,

**99%**

of pregnancies were prevented per act of sex (101 pregnancies over 24,289 acts of sex).

Since Phexxi is an on-demand birth control, during the clinical trial, the effectiveness of Phexxi was also looked at each time Phexxi was used (per act of sex). This means Phexxi prevented pregnancy **99%** of the time.

These data are not found in the Product Information and have not undergone the same rigorous evaluation as other data from the study.

Not actual size.

In studies, **less than 2%** of women stopped using Phexxi because of side effects.

## IMPORTANT SAFETY INFORMATION (CONT'D)

Avoid Phexxi if you or your sexual partner is allergic to lactic acid, citric acid, potassium bitartrate, or any of the ingredients in Phexxi. Stop using Phexxi if you develop an allergic reaction.

**For more information about Phexxi, talk to your healthcare provider and see full Product Information.**

**Please report side effects by contacting Evofem Biosciences® toll-free at 1-833-EVFM BIO or contact FDA at 1-800-FDA-1088 or [www.fda.gov/medwatch](http://www.fda.gov/medwatch).**
